Dear Mrs. Coly,

Thank you very much for your letter of July 19th, the permission to attend your conference this year as an observer, and also for the program of the conference which I have just received.

My own arrangements for transportation and for reservations at the Hotel La Reserve are proceeding well and it appears that I definitely will be able to attend the conference.

I am anticipating a very interesting series of discussions at the conference and also the pleasure of a personal meeting with yourself and the other conference participants.

Yours sincerely,
